

My steps through learning:

What I will know and understand

How I will show that I know it

# Steps through Learning Art & Design: Landscape Art

## Lesson 5

To know how collage can be used to create landscape artwork

I can define what is meant by the term 'collage'

I can make stylistic choices in use of materials to create effects in landscapes

## Lesson 3

To know what is meant by atmospheric perspective in artwork

I can explain what atmospheric perspective is

I can use tints and shades to show atmospheric perspective

## Lesson 1

To know how to use perspective in landscape art

I can identify how to use horizon lines and vanishing points in landscapes

I can use construction lines to draw objects in perspective

## What should I already know

- Have experience of using watercolour paints
- Understand how watercolours can be manipulated
- Be aware of famous artists such as Vincent Van Gogh
- Can recognise a collage effect

## Lesson 6

To know how to bring experiences together to create a landscape

I can discuss known landscape artwork and provide opinions

I can evaluate artwork of others and give reasons for my ideas

## Lesson 4

To know ways of creating abstract landscape artwork

I can explain what abstract art is

I can use patterns to create an abstract landscape

## Lesson 2

To know how to manipulate watercolour paints for effect

I can experiment with watercolour techniques

I can discuss watercolour effects in paintings

## National Curriculum:

KS2 - To improve their mastery of art and design techniques, including drawing with a range of materials

KS2 - To learn about great artists in history
