

As Readers and Writers, we will...

- read class stories about children's discoveries by the sea
- investigate the characters through drama and writing.
- look at balanced arguments, narrative and reports
- use the story and research to write a variety of texts on coasts and deserted island stories.

As Artists and Designers, we will...

- be using knowledge of survival to design an ideal island.
- Looking at European artists and techniques used with landscapes and on perspective.

As geographers, we will...

- look at the geography of the world to include continents and oceans.
- look at coastlines around the world and their features
- examine maps and the changes over time.
- look at features of maps and how the world has been mapped and measured.

As Mathematicians, we will...

- look at conversions between measurements
- solve problems with different units of measure
- investigate different written and interactive methods for adding, subtracting, multiplying and dividing.
- look at applying knowledge to reasoning problems.

As Scientists, we will...

- Look at evolution and animal adaptations
- different types of forces, including gravity, and how they are affected by different variables.

As Historians, we will...

- learn about the changes over time geographically throughout the world.
- Analyse the changes and developments map making and world wide travel.

Life on the Edge
